Who I Am: Aspiring computer software developer who likes to dabble in web technologies and tinker with computer hardware.

Technical Skills

- Node.js, Bootstrap, HTML, CSS, JavaScript, C#, Python, Express.js, Thunkable, Cloudinary, MS office

Special Projects

Bright Future Infant and Primary School   Mukono, Uganda
                                                                    September 2020 – Present

Tutor/Mentor
Teach students how to program and build websites:
- Taught HTML, CSS, and JavaScript to primary school students through weekly meetings using Google Meets platform
- Assisted students in constructing website for school
- Donated 3 computers to the school.

ZIP LANE   San Jose, CA
                                                                    May 2019 – Aug 2020

Product Designer
Built core app of the startup using Thunkable, and later C#
- App communicated with backend written in Node.js
- Utilized Cloudinary Media Database to store media files (mainly images)
- Utilized Firebase database to store user's order data
- Pitched business idea in front of a panel of judges at PWC business competition, and Overfelt HS principal.
- Won award for Best Presentation at PWC

Education

Silver Creek High School, San Jose, CA   2019 – Present
